Reproductive Choice

On June 24th the Supreme Court ruled that the constitution does not provide a right to abortion. The ruling in *Dobbs v. Jackson Women's Health Organization* allows states to regulate abortion and state legislatures can pass laws that restrict abortion before viability. On the same day, a federal judge lifted an injunction on Ohio's heart beat bill which was signed into law in 2019.

In short, Ohio has banned abortions at approximately six weeks gestation. If any cardiac activity is detected, abortion is prohibited except when there is serious risk of death or substantial impairment of a major bodily function. The bill makes no exceptions for rape or incest.

BPW/OH's Legislation Platform on Health: Actively work to strengthen and enforce legal protection for full access to all health care services including reproductive choice, funding for research into the protection for women's health care and educational programs concerning women's health issues

The Columbus Dispatch reported that the Ohio General Assembly is expected to pass a full ban on abortion later this year. Lawmakers are on an extended break until September, and some think it'll be at least November or December before a full ban bill is considered. Gov. Mike DeWine, a consistent supporter of abortion restrictions, would sign a ban into law.
